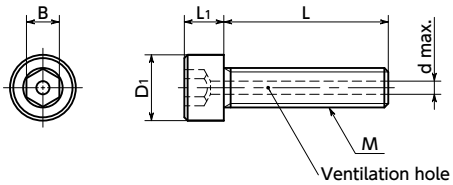
SVSS Socket Head Cap Screws with Ventilation Hole

SUS Stainless steel Vacuum Cleanroom wash & packaging



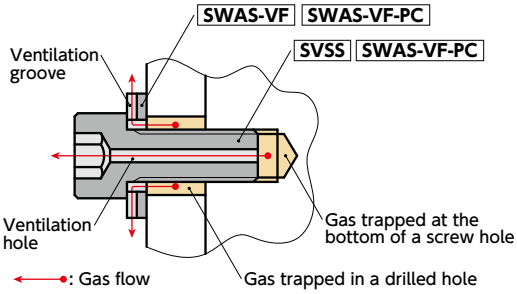
- Material/Finish

RoHS

	SVSS	SVSS-PC
Main Body	SUSXM7 (Equivalent to SUS304)	SUSXM7 (Equivalent to SUS304) Special Chemical Polish
Strength Class	A2-70	A2-70

- Usage Example

Gas trapped at the bottom of the screw hole is released through **SVSS** **SVSS-PC**, and gas trapped in the drilled hole is released through **SWAS-VF** **SWAS-VF-PC**.



- The ventilation hole easily releases gas trapped in the screw holes of equipment and machines, and supports vacuum drawing of vacuum devices.
- Cleanroom wash/cleanroom packing provided.
- Special chemical polishing treatment improves the surface roughness of **SVSS-PC**. Outgas quantity is extremely low. Ideal for use in medium vacuum environments.
- Ventilation holes are machined using a method with minimal effect on metallic structures. Brittle fracture and outgassing during use in vacuum environments are prevented.

- Application

Vacuum devices, vacuum chambers, FPD production equipment, semiconductor devices, and electron microscopes

Unit : mm

Part Number 1 No surface treatment	Part Number 1 Special Chemical Polish	M (Coarse) Nominal of Thread	Pitch	L 2																				D1	L1	B	d	Mass (g)	Qty per Pack
